A cyber warranty designed to protect your business and recover quickly from cyber attacks

Protect your business

- Peace of mind financial coverage
- Reduced out of pocket expenses
- Acts as supplemental or standalone financial protection during cyber attacks
- Integrates with your existing cybersecurity tools

Taylored for small businesses like yours! Did you know...

- 88% of cyber-attacks are tied to human error
- The average cost of a cyber attack to a small business? A staggering $300,000.
- And 75% of small businesses wouldn't survive more than a week after a ransomware hit.
